Quiz: Single-Payer

Directions: Select the answer that best completes the sentence.

1) Single-payer is a healthcare system that _____.

- A) requires citizens to pay for private healthcare
- B) mandates one person per household pay for insurance
- C) makes the government responsible for the healthcare of its citizens
- D) allows individuals to select the one healthcare plan that works best for them

2) According to Chris Pope, who writes for *City Journal*, money used in the single-payer system could better be used to _____.

- A) focus on gaps in people's coverage and for those who cannot afford healthcare
- B) strengthen the military budget of a country
- C) create more jobs in the medical field
- D) giving medical aid to foreign countries in need

3) One of the major setbacks of single-payer system such as in Canada and England is that it _____.

- A) forces private healthcare companies to provide services to people who cannot afford them
- B) has made healthcare too expensive for lower class citizens
- C) has caused a drastic decrease in people studying medicine
- D) created long waitlists at hospitals due to lack of resources and funds

4) In the United States, competition between hospitals could benefit the healthcare system but this is hindered by _____.

- A) a lack of funding to hospitals by the government
- B) state regulations that require health providers to prove there is a need for new facilities
- C) the country not adopting the single-payer system
- D) a shortage of workers to run new facilities

5) The main idea of this video is that a single-payer American healthcare system would not provide better healthcare and that healthcare could be improved if consumers _____.

- A) allowed their employers to choose their healthcare provider
- B) let the government provide all their healthcare
- C) spent more of their paycheck towards healthcare
- D) were allowed to choose their own healthcare provider based on their own needs

Single-Payer – Answer Key:

1. C
2. A
3. D
4. B
5. D
